Personal Summary

_____

In my current role I am the lead for several high value contracts including Boston Scientific and Stryker. Within this role I must be organized and dependable as these are big contracts for the company and have very high standards that need to be met. Often, I must take the position of team lead when working on projects and must delegate work to team members.

My most recent Certificates are the 5 Day Coding Challenge from Code Institute and In March I got a Distinction for a Cybersecurity Diploma from UCD Professional Academy
